**SCHUECO UK WINS GOOD EMPLOYER OF THE YEAR AWARD
FOR THE SECOND TIME IN TWO YEARS**

Schueco UK Limited, the UK's leading building envelope and solar products specialist, has won a *Building* magazine Good Employer of the Year Award for the second time in two years. This recognises Schueco UK as a Top 50 Employer and is particularly impressive since Schueco is the only company to have won the Award in both 2010 and 2011.

The methodology for judging the awards was changed this year: each company had to fill out a questionnaire providing detailed information about its range of staff benefits and complete a 500-word statement addressing relevant issues such as leadership and development, employee engagement, staff well-being and attitudes relating to social responsibility and sustainability.

The judging panel assessing the entries was made up of top-tier construction professionals including Rachel Done, Deputy Director of the UK Contractors Group, and Graham Watts, Chief Executive of the Construction Industry Council.

Schueco's Managing Director Marc von Briel and HR Director Dawn Kneafsey are delighted at having received this accolade, which they feel is an outstanding achievement for any company, particularly at a time of great economic uncertainty.

For further information on Schueco UK, its aluminium and steel building systems and PV and solar products, go to mkinfobox@schueco.co.uk.

ENDS**DECEMBER 2011**

Schueco – Green Technology for the Blue Planet

That means clean energy from solar products and windows. And the contribution that Schueco makes to the environment with pioneering building envelopes. To be more precise, with Energy³: Saving Energy – Generating Energy – Networking Energy. Window and façade systems not only save energy due to optimum thermal insulation, they also generate energy thanks to efficient solar solutions. This creates an excess of energy which can be used by means of intelligent networking. For building functions, as well as for everyday life. The result is a significant step towards energy self-sufficiency. Towards the sustainable conservation of natural resources. And for a secure future. With more than 5200 employees and 12,000 partner companies, Schueco is active in more than 75 countries worldwide and achieved turnover of 2.38 billion euros in 2010.
