

Innovative interior design systems

Schüco interior design systems

Create limitless rooms

The sliding door system quietly fulfills the requirements of modern living – partitioning rooms, creating new rooms, concealing wardrobes and enabling individual designs. The infills offer design freedom and are available with or without glazing bars.

Simple fabrication

- E6/C35 black and E6/EV1 aluminium surface finishes
- Other surface finishes on request
- For glass infills with thicknesses of 4, 6 or 8 mm and other filler materials with a thickness of 10 mm

Combine however you want

For every type of room

Changing living environments

Schüco offers a range of interior design and furniture systems that follow current living and interior trends and meet every requirement in terms of openness, transparency and multifunctionality. Intelligent product concepts provide the perfect basis for dissolving partitions in rooms, creating new rooms and furnishing your home. The systems can be combined and expanded however you like. A comprehensive range of accessories completes the range and allows the systems to be used in every living area.

Schüco – System solutions for windows, doors and façades

Based in Bielefeld, the Schüco Group develops and sells system solutions for windows, doors and façades. With 6,330 employees worldwide, the company strives to be the industry leader in terms of technology and service both now and in the future. In addition to innovative products for residential and commercial buildings, the building envelope specialist offers consultation and digital solutions for all phases of a building project – from the initial idea through to design, fabrication and installation. Schüco works with 10,000 fabricators and 30,000 architectural practices, as well as construction professionals, who commission buildings around the world. Founded in 1951, the company is now active in more than 80 countries and achieved a turnover of 1.995 billion euros in 2021. For more information, visit www.schueco.com
