Purpose

This list contains all currently valid, accredited test methods of the test laboratories of the OneLab Technology Center of Schüco International KG.

The certificate annexes

'Annex to the Partial Accreditation Certificate [D-PL-11030-01-01](#) according to DIN EN ISO/IEC 17025:2018' and

'Annex to the Partial Accreditation Certificate [D-PL-11030-01-02](#) according to DIN EN ISO/IEC 17025:2018'

do not cover the current status of the accredited test methods.

Within the following testing fields, the Technology Center is permitted the free choice of standard or equivalent testing methods (including revisions) without being required to inform and obtain prior approval from DAkkS:

1. Accredited test procedures for the Partial Accreditation Certificate D-PL-11030-01-01
2. Mechanical performance of metal profiles and components
3. Leak tests (air, wind, watertightness) of windows and doors
4. Service life tests of windows and doors
5. Mechanical tests of the resistance of windows and doors
6. Security tests (burglar resistance) of windows and doors
7. Environmental simulation tests by methods of exposure to laboratory light sources of plastic elements, instruments and building components
8. Thermal performance tests (Determination of thermal transmittance) of windows and doors
9. Electromagnetic compatibility
