Schueco AS PD 70.NI

Panorama design sliding system

The Schueco panorama design sliding system with its floor-to-ceiling glazing allows natural light to flood your home. The system offers a combination of a slim interlock section and a concealed outer frame that creates an uninterrupted view from the inside to the outside. The system meets the highest performance requirements and is easy to use.

Slim profiles

A 19 mm and 25 mm interlock profile width not only offers your home an elegant look, but it is also built for high-structural stability to handle tall and wide openings.

Concealed frames

The system allows room-height glass with large vent widths and leaving a pure panorama view.

Unique dynamic threshold

The new Schueco sliding system AS PD 70.NI boasts a patented threshold design that automatically raises to maintain flush threshold at the bottom and side outer frames.

Overlapping interlock

The system provides the same slim face width even for a two-track-four-shutter typology.

Multiple design configurations

Multiple typologies and thresholds help to personalise new-build homes and renovation.

Integrated handle

Custom-engineered handle that is a seamless extension of the system, with optimised grip and ease of use.

Invisible threshold

Get a seamless transition between the inside and outside floor, with the new invisible threshold.

Elegance with performance

Unrestricted views

The combination of fully concealed frames and slim profiles of 19 / 25 mm provides unobstructed sightlines.

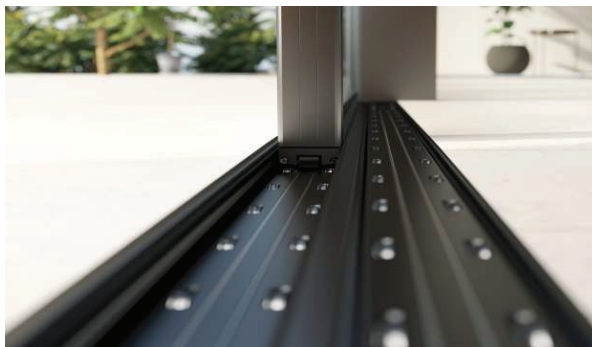

Unique barrier-free threshold

An integrated dynamic-threshold option provides a seamless transition from the inside to the outside.

Abundant daylight

Large glass panels allow natural light to flood your home improving your health and well-being.

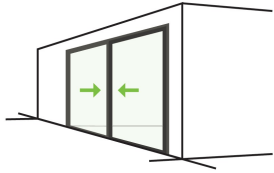

Smooth operation

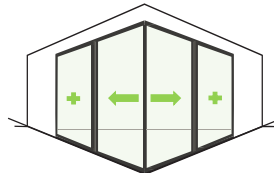

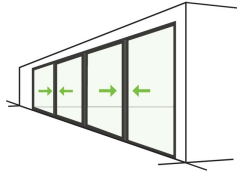

Precision, high-quality rollers and easy-to-grip integrated handles make even the large vents easy to operate.

System data

Max. 3000mm
Vent width

Max. 4500 mm
Vent height

19 mm / 25 mm
Interlock face width

14 – 40 mm
Glass thickness

Upto 500 kg
Vent weight

Schueco certified performance

Tested as per ASTM and European standards

Windload resistance
Class CE 3000- 3000 Pa

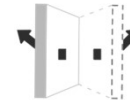

Max. test pressure

Frame deflection

Water-tightness
Class 9A- 600 Pa

Durability
2500 cycles

Air-permeability
Class 4- 300 Pa

Sound insulation
Reduction upto 30 dB

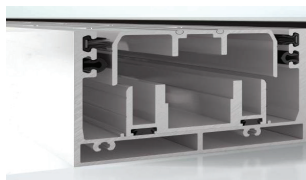

The Schueco advantage

An integrated design, materials and service approach to deliver the highest global standards to your home

Design rigor & philosophy

Each system from Schueco brings 70 years of global experience in structural detailing and design innovation.

High-performance materials & processes

High-EPDM-content gasket with peroxide curing technology, integrated drainage system, and custom brush seal, all contribute to best-in-class air, water, wind and acoustic performance.

Accessory specifications & testing

Engineered, high-quality materials designed for smooth operation, corrosion resistance and durability with meticulous testing of all components, ensure consistent long-term performance.

Last-mile training and support

Schueco provides in-depth technical and hands-on training to the fabricator partners and certify them to deliver outstanding buildings.

Schueco - System solutions for windows, doors and façades

Schueco products are extensively used all over the world and meet the highest requirements of design, comfort, security and energy efficiency. Headquartered in Bielefeld, the Schueco Group has more than 6,330 employees worldwide and strives to be the industry leader in terms of technology and service today and in the future. The company is active in more than 80 countries and works together with over 40,000 fabricators, developers, architects and investors.
