Schüco Digital GmbH

Prerequisite

Windows versions required by S-Cad 2018:

As a 64-bit application, S-Cad 2018 requires one of the following Microsoft® Windows versions:

- Microsoft® Windows® 7 SP1 with Update KB4019990 (64 bit)
- Microsoft Windows 8.1 with Update KB2919355 (64 bit)
- Microsoft Windows 10 Anniversary Update (64 bit) (Version 1607 or later)

S-Cad by Download

As of version 2018, S-Cad will be provided as a download from our Schüco Digital Server.

The installation of the program starts after the new setup file has been downloaded.

You can download the S-hüCad installer from:
http://download.schueco.digital/setup/scad_downloader.exe

Notes on the installation

I. CAD article libraries:

With S-Cad 2018, the current CAD article libraries for aluminum and steel systems are also installed.

II. Installation with administrator rights:

Before you begin with the installation please make sure that you are logged on with administrator rights.

III. Close open Windows applications

Before starting the installation please close all open Windows applications.

Installation

When the download is complete, the installation of S-Cad starts automatically.

1 Choosing S-Cad language

In the start dialog please choose the desired S-Cad language and click "OK".

2 Installation start

Please click "Install" to start configuring the installation process.

3 Licence agreement

Please read the licence agreement and then select the option: I Accept.

Then click "Next >".

4. Installation

S-Cad is already entered as the product to be installed. The subsequent display panel informs you of the currently set installation settings.

Now click "Install".

The required components for S-Cad 2018 are now being installed.

5 Installation finished

When the installation process has been completed, a message will be displayed.

Click "Finish" to close the installation wizard.

S-Cad 2018 and AutoCAD 2019, Windows versions

S-Cad 2018 is based on the current AutoCAD OEM version 2019.

For this reason, the following Windows versions are required for the use of S-Cad 2018

- Microsoft® Windows® 7 SP1 mit Update KB4019990 (64 Bit)
- Microsoft® Windows® 8.1 mit Update KB2919355 (64 Bit)
- Microsoft® Windows® 10 Anniversary Update (64 Bit) (Version 1607 oder höher)

Drawing format

S-Cad 2018 now supports the AutoCAD drawing format **2018**.

Article data updates online

Updates of the article library are now automatically done online as soon as new article data is available.
